COMPANY PROFILE

Mr. Abdul Khaleque Khan was a visionary who, in 1956, set out to transform the small town of Barishal with an audacious dream. Inspired by Acharya Prafulla Chandra Ray, he founded Opsonin Chemical Industries Limited on March 3, 1956. With his belief in the power of medicine and a profound sense of purpose, Mr. Khan founded Opsonin Chemical Industries—a modest manufacturing facility that would eventually grow to become a cornerstone of both the local economy and the global pharmaceutical industry. In 1976, leadership transitioned to the next generation, assigning the eldest son Capt. Abdus Sabur Khan as Managing Director transforming the partnership business into a private limited entity. In 1986, executive leadership was passed to his younger brothers, appointing Abdur Rouf Khan as Managing Director and Abdur Rakib Khan as Executive Director. In 2015, Abdur Rakib Khan was designated as Deputy Managing Director and later re-designated as Deputy Managing Director & CEO in 2026, ensuring continued growth and success.

Mr. Khan began his journey in a family of modest means, driven by a deep-seated desire to make a difference. Over the past 70 years, Opsonin Pharma Limited has grown into Opsonin Group, expanding its portfolio from its inaugural product, distilled water, to a diverse range of over 1,200 pharmaceutical products employing over 12,000 people. The company has also made significant strides in the Animal Health and Herbal & Nutraceuticals sectors. Today, Opsonin Group has established a strong presence in over 28 countries across multiple continents.

Our products continue to enhance the quality of life for the people of Bangladesh and across the world, helping them lead longer, healthier, and more productive lives. In keeping true to our motto, “Ideas for healthcare,” we have established a multi-faceted approach to combating existing and newly discovered health crises through robust physical and software infrastructures, short time-to-market strategies, and extremely thorough continuous quality evaluation across all aspects of our operations.

Vision:
Our vision is to continue embodying our founding purpose, "Ideas for healthcare," by innovating to enhance the quality of our products, expanding our capacity to improve the lives of patients, their families, and caregivers, and increasing accessibility to a healthier, better life for people worldwide.

Mission:
Our mission has remained steadfast since our foundation: to safeguard public health and well-being across all walks of life by developing and delivering life-saving medicine, addressing the full spectrum of healthcare needs—from daily essentials and emergencies to global health challenges.

Quality Policy:
Opsonin is committed to improving its position continuously as a leading pharmaceutical company in Bangladesh and strengthening its global presence. Opsonin creates value for its consumers and other stakeholders by providing the highest quality healthcare solutions through appropriate application and development of resources and processes.

OUR VALUES

To achieve our mission, we affirm our values of Leadership, Teamwork, Respect for People, Customer Focus, Performance, and Integrity

1. **Leadership:** The management empowers those around them by sharing knowledge and rewarding outstanding individual efforts. Our management always strives to achieve difficult goals, envisioning what needs to be done and motivating others.
2. **Teamwork:** We know that to be a successful company, we must work together as a team to meet the changing needs of our customers.
3. **Respect for People:** We recognize that people are the cornerstones of company's success and we are proud of our history of treating people with respect and dignity.
4. **Customer Focus:** We are deeply committed to meeting the needs of our customers, and we constantly focus on customer satisfaction.
5. **Performance:** We continuously endeavor to improve our performance. Respect for employee is never compromised.
6. **Integrity:** We demand others and ourselves to be of the highest ethical standards, and our products and processes to be of the highest quality.

ABDUR ROUF KHAN
MANAGING DIRECTOR

CAPT. (RETD.) ABDUS SABUR KHAN
CHAIRMAN

ABDUR RAKIB KHAN
DEPUTY MANAGING DIRECTOR & CEO

MESSAGE FROM THE BOARD OF DIRECTORS

At Opsonin Pharma Limited, our most valuable asset is our people. We take immense pride in our highly skilled professionals, whose dedication and expertise drive our success across diverse operational areas. They work tirelessly, prioritizing the growth and success of the company over individual achievements, all to fulfill our mission of enriching lives through the production of the highest-quality medicines.

With cutting-edge scientific innovations at the core of our operations, we adhere to global standards, including FDA, MHRA, TGA, PIC/S, and ISPE requirements, ensuring excellence in every sphere. Our proprietary ERP software significantly supports us to be independent, agile, and self-sufficient as we expand our operations. We are proud to lead the industry in rapidly introducing new molecules and to have earned the enduring trust of patients and the medical community.

Our manufacturing facilities, including the newly established Anti-Cancer unit, serve as a cornerstone of our progress, dedicated to advancing care and improving lives globally. Looking to the future, we are committed to establishing advanced manufacturing facilities for Hormone, Vaccine, and Biotech products to expand our impact and reach further.

Opsonin Pharma Limited is dedicated to its pursuit of excellence, guided by integrity and a commitment to innovation. Our achievements are a testament to the relentless efforts of our employees, the support from our stakeholders, and the enduring trust of our customers. We extend our heartfelt gratitude to everyone who has played a role in our journey, and we look forward to continuing this legacy of excellence together.

PRODUCTION HUB

Opsonin Pharma Limited began operations in 1956 with a small team of 25 people, occupying a modest 3,500 square feet of space on Bagura Road, Barishal. At present, our facility covers over 200 acres of land and employs over 5,000 employees, integrating separate manufacturing facilities for Penicillin, Cephalosporin, Anticancer, Agrovet, Liquid, and General Pharmaceutical Products to serve the demands of our customers and patients across Bangladesh and more than 28 countries across the world. Our ever-expanding portfolio of production facilities currently manufactures over 8 billion units of pharmaceutical, nutraceutical, and animal health products per year.

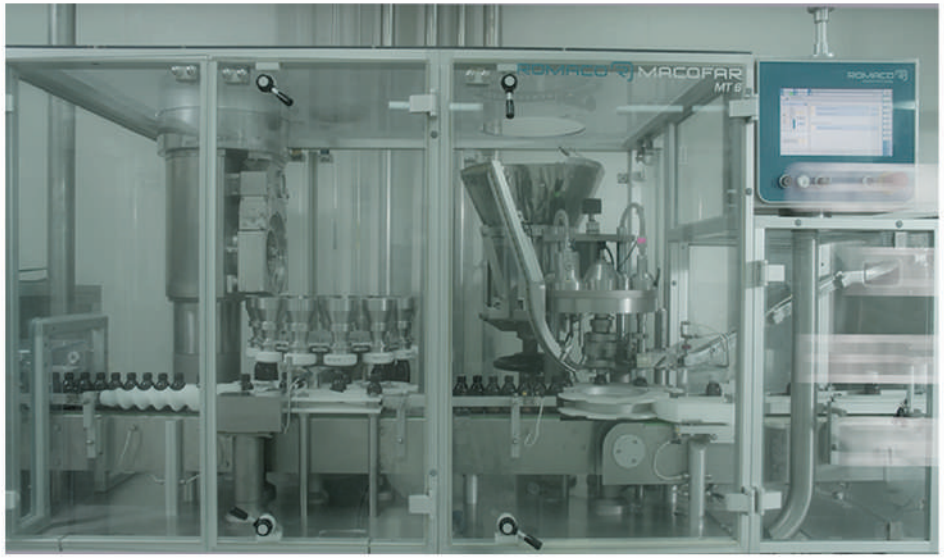

© ALL RIGHTS RESERVED

These manufacturing facilities are equipped with modern machinery, advanced waste treatment, and utility systems to comply with the pharmaceutical regulatory requirements of FDA, UK MHRA, Australian-TGA, EU, WHO, PIC/S, and ISPE guidelines. Today, we produce more than 1200 pharmaceutical products in different dosage forms and fulfill cGMP requirements during production, distribution, and sales.

Our diverse team includes pharmacists, skilled engineers, scientists, technicians, and quality control specialists, each contributing to the company's mission of producing reliable and effective pharmaceuticals. The collaborative environment fosters innovation and drives continuous improvements in production methods.

INNOVATION HUB

We have a fully dedicated Product Development (PD) facility for the development of new products. With over 1,000 successful product launches and average 80 new products introduced annually, our PD lab embodies Opsonin Pharma's commitment to innovation and quality.

REASSURING QUALITY

Our Quality Assurance (QA) department enforces the highest standards, meticulously aligning with the regulatory requirements set by the FDA, MHRA, TGA, PIC/S, and ISPE. Through comprehensive monitoring, rigorous testing, and continuous improvement practices, we ensure that all products meet or exceed international compliance expectations, guaranteeing safety, quality, and consistency at every stage of production.

MEDICAL
SERVICES TURF

Opsonin Pharma Limited actively engages with government organizations to support public health initiatives and foster collaboration. Our commitment to Corporate Social Responsibility (CSR) drives us to contribute to the overall well-being of society by aligning our efforts with national health policies and priorities. We aim to make a positive impact on public health outcomes and contribute to the sustainable development of the healthcare sector in Bangladesh and all the countries where our products are available.

PRODUCT MANAGEMENT

OPL is renowned for its outstanding product quality, world-class manufacturing facilities, product development capabilities, and unparalleled services. We produce and market branded generics for almost all diseases in our national and international markets.

Our portfolio of pharmaceutical products covers anti-infectives, antiulcerants, antifungals, antispasmodics, antiemetics and gastro-prokinetics, anthelmintics, analgesics, antipyretic and NSAIDs, narcotics, probiotics, cough preparations, laxatives, haematinics, dermatological agents, corticosteroids, antihistamines, antiprotozoals, antiasthmatics, muscle relaxants, ophthalmics, CNS agents, vitamins and minerals, urological, gynecological, cardiovascular, antidiabetic, herbal & nutraceutical preparations in different dosage forms like tablet, capsule, soft gelatin capsule, suppository, suspension topical spray, solution, drop, injection, prefilled syringe, infusion, mouthwash, cream, ointment, lotion, nasal spray, MDI, DPI, BFS and many more.

COMMERCIAL PROVINCE

Opsonin Pharma Limited procures top-grade machinery, equipment, materials, and services from both international and local sources to ensure operational efficiency, cost-effectiveness, and stakeholder satisfaction. Our professional team is dedicated to maintaining globally recognized standards, including BP, EP, USP, and INN, as well as complying with USDMF and COS certifications, reflecting a strong commitment to international pharmaceutical excellence.

HUMAN RESOURCES

The Human Resources Department of Opsonin Pharma Limited plays a key role in developing and sustaining a high-performance workforce, crucial for achieving organizational goals.

The HR team enforces fair labor practices and offers exclusive training programs to employees that boost job performance, navigate professional challenges, and encourage competition in the pharmaceutical industry while fostering personal growth. This objective is accomplished through policy formulation and ongoing assessment, strategic human capital planning, system modernization, and supporting career management initiatives.

The Human Resources Department also ensures that each employee feels valued, motivated, and empowered to contribute their best to the organization, and is equipped for success now and in the future.

FINANCIAL AFFAIRS

All financial activities are integrated and automated through accounting software for balance sheet preparation, payroll processing, treasury management, product costing, and inventory management under the supervision of professional accountants. Financial statements are prepared on the historical cost convention, on a going-concern concept, and on an accrual basis, in accordance with International Accounting Standards (IAS). To protect the interests of shareholders, stakeholders, and other related groups, OPL Finance has implemented a well-designed internal control system. It complies with all the requirements of government authorities and maintains relationships with Financial Institutions.

To achieve sustainable development, the finance department minimizes risks through automated on-demand data analysis and waste reduction through asset management.

INFOTECH

We utilize our own robust, proprietary ERP software that encompasses every aspect of our operations. This allows us unparalleled flexibility to create applications that support the unique needs of the market, whether it be local or international. Real time supply chain management, market response, and market penetration monitoring, as well as quality management and facility monitoring, are some notable ones of over 8000 features that we utilize every day to ensure that we are the fastest and best responders to changes in the market and regulatory climates.

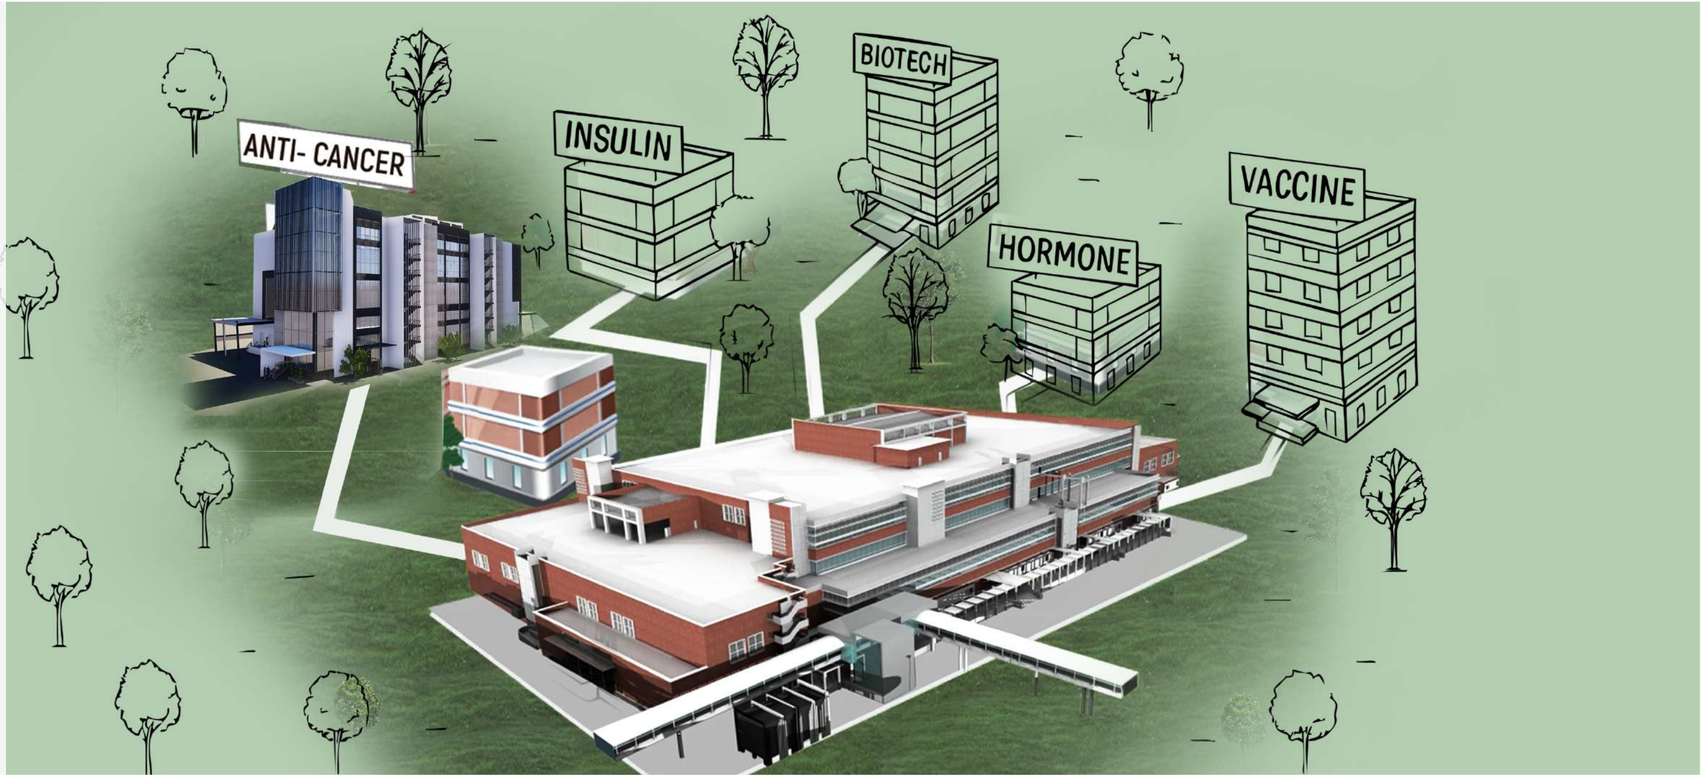

With the help of integrated software applications along with advanced hardware infrastructure, we have been able to comply systematically with cGMP and local & international regulatory requirements. All business functions are seamlessly integrated and overseen by our expert IT team, which tackles the challenges of today and is prepared to fulfill the business needs of tomorrow.

IMMINENT
FACILITIES

We are committed to advancing healthcare through innovation and cutting-edge technology. Our upcoming facilities are designed to meet the highest international standards and cater to critical therapeutic areas, ensuring that we continue providing quality healthcare solutions. With these imminent facilities, Opsonin Pharma Limited continues to strengthen its role as a leader in the pharmaceutical industry, committed to improving health outcomes and enhancing the well-being of communities worldwide.

• Anticancer Facility: With operations set to begin in 2026, our anti-cancer facility will focus on solid oral and injectable oncology products, with upcoming capabilities in product development and targeted therapies.

Opsonin Pharma Limited is actively advancing its growth strategy through a focused plan to expand into high-potential therapeutic areas. In line with our commitment to delivering innovative and life-saving healthcare solutions, we are preparing to introduce a new portfolio that includes insulin, biotechnology-based therapies, hormonal treatments, and vaccines.

MORE THAN

4000++ SALES FORCES

ACROSS THE COUNTRY

DISTRIBUTION CHANNEL

Our distribution channels across the country are entirely vertically integrated, enabling us to control the flow of products to effectively meet demand. With 35+ depots, 915+ well-trained distribution assistants, 660+ packers, 600+ support staff, 470+ trained drivers, and 450+ environmentally friendly delivery vans, the needs of people for life-saving medicines, supplements, and livestock pharmaceuticals are met faster than competitors. We ensure product quality from production to delivery by meticulously maintaining the required temperature of pharmaceutical products in our warehouses, depots, and during transportation.

We also maintain robust cold chain facilities (2°–8°C), including adequate freezer vans equipped with data loggers for highly specialized products such as biotech, anticancer, and insulin products, in compliance with international guidelines across the country.

AGROVET

BUSINESS EXTENT

The Agrovet Business Unit is committed to advancing animal health, food safety, and rural livelihood through time-demanded solutions for the livestock, poultry, and aquaculture industries in Bangladesh. Opsonin Agrovet ensures high-quality, safe products that prevent disease at the source. Our focus on non-antibiotic growth promoters and sustainable practices addresses critical industry needs while supporting economic prosperity for rural communities.

HERBAL & NUTRACEUTICALS

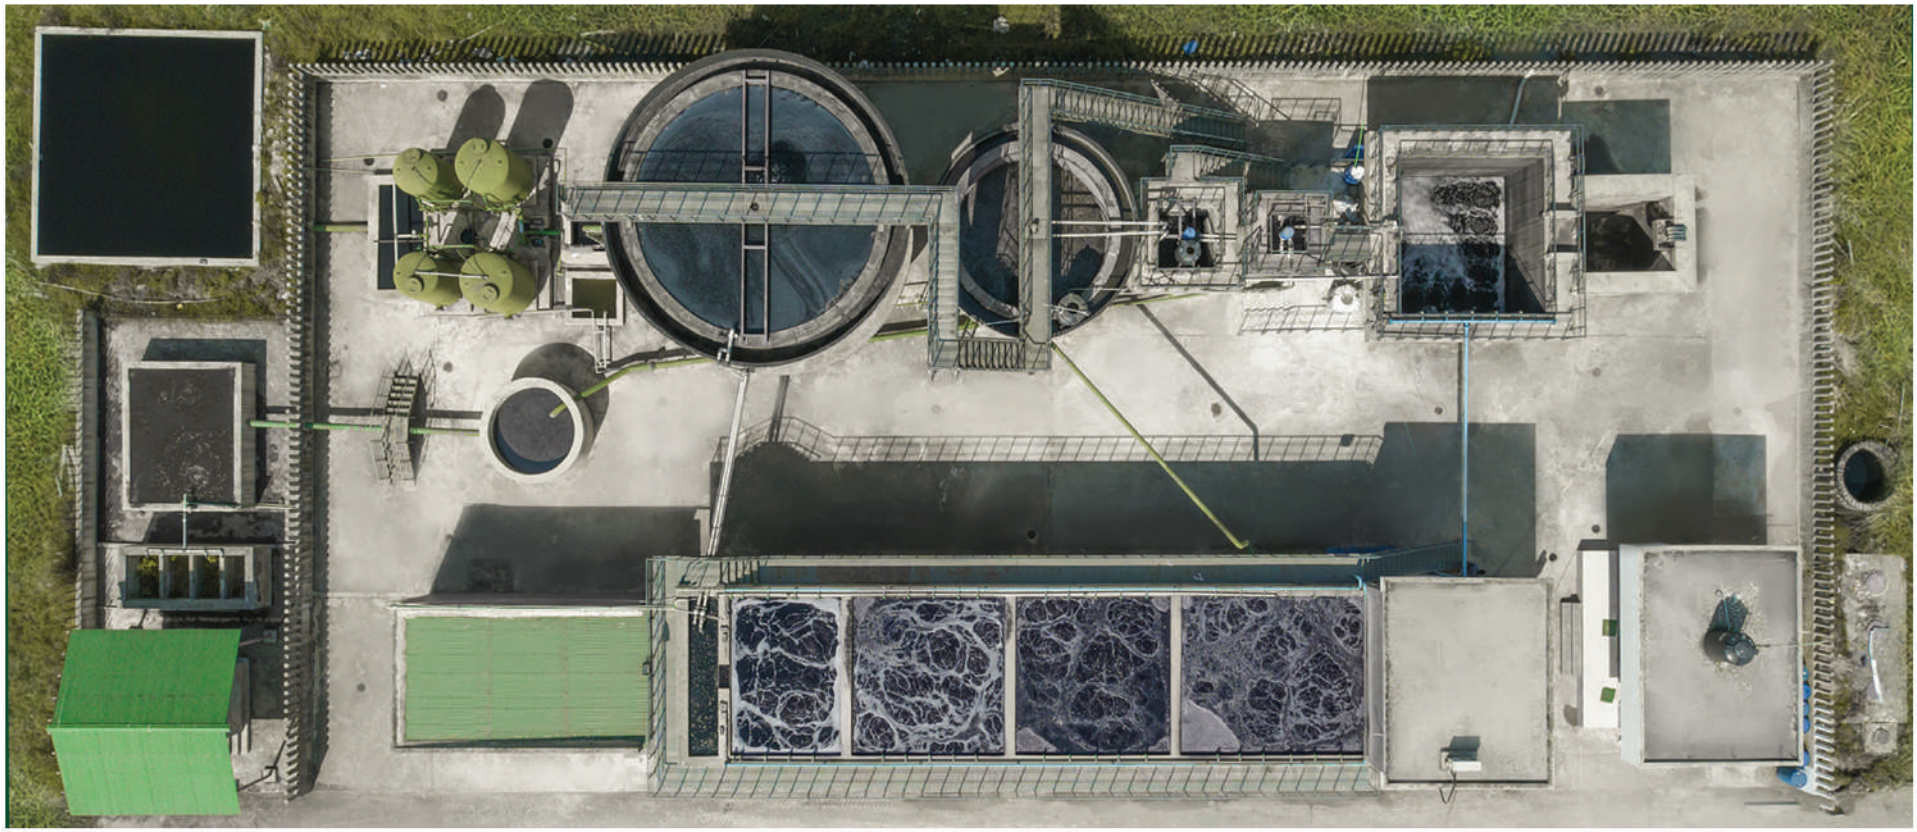

BUSINESS EXTENT

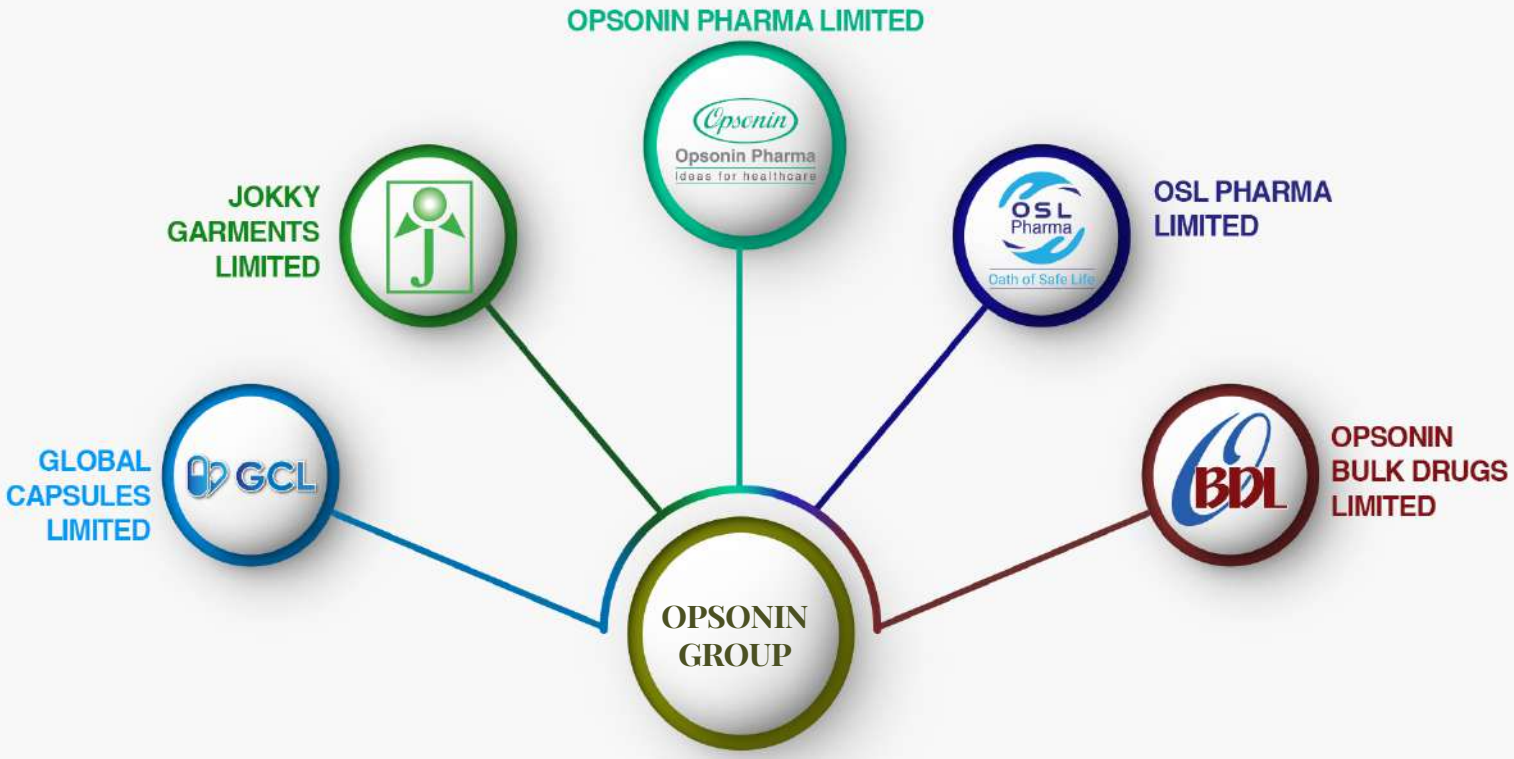

As one of the country's leading Herbal & Nutraceutical product manufacturers, we provide potent natural medications and supplements through diversity and innovation. By blending the power of nature with modern science, we develop trusted and effective herbal solutions across a wide range of therapeutic classes. Our products are formulated with carefully selected herbs and produced under uncompromising quality standards to ensure safety, consistency, and effectiveness. Supported by state-of-the-art manufacturing facilities and a strong commitment to innovation, the company strives to bring the best of herbal and nutraceutical medicines to modern healthcare and deliver nature's healing for a healthier tomorrow.

ENVIRONMENT AND SAFETY

Opsonin Pharma Limited is committed to maintaining the highest standards of Environment, Health, and Safety (EHS) practices across its operations. We recognize the importance of sustainable practices and prioritize the well-being of its employees, communities, and the environment. Our EHS framework is designed to ensure compliance with relevant laws and regulations while promoting a culture of safety and environmental responsibility.

To achieve these goals, we implement comprehensive training programs focused on EHS awareness and best practices. We actively monitor workplace conditions to prevent occupational and chemical hazards. By ensuring that our water and waste treatment procedures eliminate harmful byproducts, we not only enhance operational efficiency but also improve the health and safety of our community and local environment.

SISTER CONCERNS

OSL Pharma Limited began its journey in 1986 as the manufacturer of intravenous fluid using the Blow-Fill-Seal (BFS) technology. It was the first company in Bangladesh to manufacture disposable syringes, infusion sets, and needles. Over time, the company has expanded its operations by introducing new products, molecules, and technologies. The company now manufactures a diverse range of products, including general formulations (tablets, capsules, syrups, suspensions, injectables, and emulsions), ophthalmic, otic, and nasal preparations, as well as IV fluids and medical devices.

Global Capsules Limited, founded in 1990, is the pioneer in manufacturing gelatin and empty hard gelatin capsules in Bangladesh, one of the largest in Southeast Asia. In 2024, the Company also expanded its business by introducing vegetable capsule shells (HPMC- Hydroxypropyl Methyl Cellulose).

Jokky Garments Limited, began operations in 1982 as one of the pioneers in the export-oriented ready-made garment industry. Today, it is one of the successful garment manufacturers contributing to Bangladesh's economic development.

Opsonin Bulk Drugs Limited has been one of Bangladesh's leading & emerging Active Pharmaceutical ingredient (API) manufacturers since 1995. Currently, the company is manufacturing Amoxicillin Tri Hydrate BP, Flucloxacillin Sodium BP, Cloxacillin Sodium BP, Paracetamol BP, and Diclofenac Sodium BP. To reduce the import dependency, Opsonin will expand its API manufacturing facility.
