

Natal[®]-16

Multivitamin-Multimineral

Description

Natal[®]-16 is specially formulated with 16 essential nutrients to provide multivitamin & multimineral support when planning conception, throughout pregnancy and while breast feeding. It is carefully developed by experts so that all ingredients are within safe levels for pregnancy and are moderate rather than excessive. It provides iodine to promote healthy development of baby's brain, eyesight & hearing; provides folic acid that may reduce the risk of brain and/or spinal cord birth defects such as spina bifida if taken daily for 1 month prior to conception and throughout pregnancy. It also provides vitamin D to support calcium absorption to assist with healthy development of baby's bones.
